Dear Kezhou

Thank you for sending through the e-version of the thesis. Walter Newbury will deliver directly to our office and the information you need is as follows:

Contact name: PhD Academy (it does not need to be addressed to anyone in particular)

Room number: LRB 4.03

Building: Lionel Robbins Building

Your department will complete the rest of the exam entry form and submit that to us. A note to the department: as Kezhou is submitting prior to completing 3 years' of registration, please can the final page be completed. It asks for a short case to the RDSC Chair to allow for early submission.

As you are submitting your thesis in the coming days, there is actual no need for the residing outside the UK to be considered as once you have submitted your thesis, the requirement to be on-campus undertaking studies no longer applied. We will still need to cancel the Tier 4 visa and you should contact ISVAT for advice on re-entering the country for your viva.
